D/M: [] had a conference with representatives of the Department of STATE on the IRANIAN OIL SITUATION. In the opinion of the Petroleum Branch the outcome depends upon the developments in regard to two major unknowns: (1) Will the British let the operations falter in an attempt to force acceptance of their terms, and (2) Are the Communists sufficiently strong to prevent prompt settlement of the issue and gain direct or indirect control should the economy seriously falter as a result of the dispute?
